WORK EXPERIENCE

AVADHUTA TECHNOLOGIES

Bengaluru

Software Engineer

2023 - May 2024

- Developed and maintained responsive websites using HTML, CSS, JavaScript, and frameworks like React and Angular.
- Coordinated efforts of design team and backend developers for unified user interface.
- Resolved technical issues and bugs, enhancing application stability, and reducing downtime by 40%.
- Implemented version control and collaborative workflows using Git/GitHub, improving project collaboration and version tracking.
- Integrated RESTful APIs and dynamic, data-driven components to improve interactivity, enabling seamless communication between front-end and back-end systems.
- Utilized TypeScript to enhance code quality, providing type safety, reducing bugs, and improving development efficiency in React projects.
- Integrated third-party libraries and tools, such as Axios for API handling, and Material-UI/Ant Design for ready-to-use component libraries.
- Utilized the Context API for efficient global state management, improving performance in complex applications.
- Worked on complete development cycles for apps and web at [PAZL Software Solutions](#).

HINDUJA GLOBAL SOLUTIONS

Bengaluru

Senior Consultant Quality

2019 - Jun 2023

PROJECT

PAZL software solutions
